

# Vysocina Region – experience from IANIS+ project

**Conference, Darmstadt  
Vaclav Jachim**

**November 6, 2008**

- Vysocina region
  - One of the 14 Czech regions
  - 704 municipalities, 510 thousands inhabitants
  - ICT - one if the key priorities of the region
  
- Key objectives within the ICT development
  - ICT infrastructure
  - Transparent and accessible e-services
  - Cooperation (regional, national, international)

## How we participated in the IANIS+ project?

- **A member of a project Steering Committee – great overview of the project life**
- **Members in each working group (eGov, eBiz, eLearn, eHealth, Infrastructure) – unique possibility of the international exchange of knowledge.**
- **Peer visits – one week visits in UK, Spain and one visit from Spain hosted in CZ**
- **Presentations at the conferences, policy seminars**
- **Promotion of our best practices projects – ROWANet...**

## IANIS+ main benefits for the region

- **Project partnership**
  - Participation on the project activities
  - Cooperation with specialists from EU
- **Knowledge exchange**
  - Exchange of experience, knowledge, best and bad practices
  - Way how to find experts for the new project
    - IANIS+ working groups, peer review visit, intensive course, policy seminars
- **Consultations**
  - Specific questions and problems – e.g. tech – parks, open access networks
  - Need of the quick response
  - Wide number of possible consultants
    - IANIS+ working groups members, peer reviewed regions, member regions
- **Promotion of the region**
